## CRAFTED WITH LOVE & PRIDE IN SWEDEN SINCE 1999

Pappelina's accessories are made to match our extensive collection of rugs. We always choose to manufacture as close to Pappelina in Dalarna, Sweden as possible and many of our collaborators are family-owned local businesses. We set very high standards when sourcing for materials and producing our goods. When you choose a Pappelina product – be it a tray made in Sweden, a linen towel made in Finland or a cushion made of French fabric with an innovative Danish inner cushion – you can be certain that we can trace every step taken during manufacture, that the materials are certified and controlled and that each person involved has received a decent salary for their work. When choosing Pappelina, you can be confident that your product of choice will withstand the daily wear and tear and be with you for a long time to come.
