DESCRIPTION

Woven on a traditional loom using wooden shuttles. Very practical and easy to clean rugs manufactured with Swedish certified PVC. Reinforced welded edges or double hemmed edges, depending on size, for strength and durability. Measurements may vary $\pm 4\%$ as a result of the various craft processes during manufacturing. Thickness 5 mm/0.2".

MATERIAL

Phthalate-free PVC ribbon, polyester warp. The plastic foil PVC ribbon is made in southern Sweden by the company Gislaved Folie AB. New raw plastic is used to manufacture the foil, which ensures that no environmentally hazardous heavy metals or harmful softeners make their way into our rugs.

We follow all regulations and requirements set by Swedish law and the EU, where strict environmental rules apply. Most of these are set by ECHA* through the REACH regulation, which was put in place to reduce the health and environmental risks posed by chemicals.

* ECHA is the European Chemicals Agency that heads the REACH regulation. REACH stands for Registration, Evaluation, Authorisation and Restriction of Chemicals.

SIZES

- Width 60 cm with lengths from 85 cm to 250 cm
- Width 70 cm with lengths from 50 cm to 450 cm
- Width 140 cm with lengths from 200 cm to 220 cm
- Width 180 cm with lengths from 220 cm to 300 cm

CARE INSTRUCTIONS

- Vacuum your rug regularly.
- Hand or machine wash at low temperature, max 30°C/85F.
- Do not spin – do not tumble dry.
- Do not damage the welded edges.
- If necessary re-shape by evenly stretching whilst wet.
- Preferably dry flat. If hung, please use a wide bar.
- Rinse off ketchup immediately, do not rub!
- Use an appropriate sized washing machine.

Rule of thumb is max 70 x 250 cm rug for a 6 kg washing machine.

SALES ARGUMENTS

- Made in Dalarna, Sweden
- Made of high-quality Swedish plastic
- For outdoor and indoor use
- High quality, longlasting product
- High sun and UV-resistance, won't fade
- Not sensitive to liquids
- An all-year-round product
- Easy to wash, easy to wipe off
